

SPRING GROVE TOWN BOARD MEETING

January 12, 2016

Ernie reported that Mr. Chamberlain who used to plow snow is now in the hospital due to a fall at home and then complications at the Nursing Home. His wife Carol Chamberlain is now at home alone with meals being brought in. Their son is living away now.

We have received a letter asking if we are planning to destroy any old records. Ernie says since we still have room in storage he does not feel it is necessary that we destroy any old records at this time.

Our Fire Contract with the City of Richmond has gone up to ~~\$3500.00~~ ^{\$21,000.} Ernie plans to discuss this with the City Controller. Our Counselor has read it but has no copy yet.

An agreement with the Sheriff to patrol our roads is ongoing at this point. The cost depends on the number of hours they patrol. A discussion about how to handle this and a motion made by Adolph Werner and seconded by Murlin Clark to go ahead with this. There have been three accidents on Waterfall Road with deer involved. Adolph plans to talk with Friends Board about an O.K. to hunt them in the bottom land and will get with other property owners on Waterfall for permission to bow hunt on their land beginning next Fall.

Reid Hospital showed us plans they have for razing two office buildings and the church building they have purchased and build a new large building on that property with 158 parking places and using the two existing entrances on Waterfall Road and Chester Blvd. This will be for ENT Medical Office of 1800 Square foot. They hope to occupy the new building by the end of this year. Council will review our BZA requirements with 1st a Planning Com. Meeting and 2nd it goes to BZA. We can't ignore our code until we change our ordinances. Murlin Clark will call a special meeting because of the size of the new building.

Meeting adjourned at
